

Ref. No: 1468
Date: 15/01/25
Subject: FOI1468 - Pharmacy aseptic services

REQUEST

Existing aseptic compounding services

1. Does your Trust provide in-house aseptic compounding services?

If yes:

- a. What type of aseptic products are prepared in-house (e.g. chemotherapy, SACT, parenteral nutrition, CIVAS, antibiotics)?**
- b. How many aseptic units does your Trust operate?**
- c. Please confirm whether each aseptic unit operated by your trust is on-site or off-site. If off-site, please specify the location.**

2. Do you outsource any aseptic compounding services to external providers (either NHS Trusts or industry providers)? If yes:

- a. To which organisations do you outsource aseptic compounding services?**
- b. What type of aseptic products are outsourced to these organisations (e.g. chemotherapy, SACT, parenteral nutrition, CIVAS, antibiotics)?**
- c. When are these contracts due to run until?**
- d. What is the value of each of these contracts per annum?**

Future plans for aseptic compounding services

- 3. Does your Trust have plans to expand or upgrade its existing aseptic compounding facilities? If yes, please provide details.**
- 4. Are there existing or planned strategic partnerships or collaborations (with other NHS Trusts or industry providers) to expand or enhance aseptic services?**
- 1. Are there plans to transition more services in-house or increase outsourcing for aseptic preparations? If yes, please provide detail of these plans.**

Additional

- 6. Who is the best person to contact regarding the setup of aseptic compounding services for your organisation? Please provide name, position and contact details where possible.**
