

Ref. No: 1470
Date: 16/01/25
Subject: Hospital Flu Admissions

REQUEST

All patients' records are updated with their vaccinations, so the Trust is aware of a patients vaccination record on admission. As a means of determining the efficacy of the current flu vaccine and the take up of the vaccine it is expected that this information will be recorded.

1. How many patients in the Trusts hospitals with flu had received the flu vaccine before entering hospital?
2. How many patients in the Trusts hospitals with flu had not received the flu vaccine before entering hospital?

MWL RESPONSE

This information is not held at the Trust.
