

Ref. No: 1565
Date: 21st March 2025
Subject: Respiratory Services

REQUEST

Detail is provided on the accompanying excel sheet in relation to on call respiratory services across Mersey and West Lancs NHS Teaching Hospital NHS Trust

Please note - the request is for on-call respiratory services- any non-medical professions that provide on-call services for respiratory patients. This is likely to be the physiotherapy department and if you have any outreach (nursing) that provide on-call services.

I hope this helps to clarify, if you do have two professions providing on-call it would be great if each profession could complete a spreadsheet.

RESPONSE

Southport and Ormskirk sites offer a respiratory on call and have completed the required spreadsheet with relevant detail

Whiston and St Helens do not offer a respiratory on call service.

The Trust do not have any on call respiratory services in the community.
