

Ref. No: FOI2049
Date: 12/09/2025
Subject: Pre Operative Assessment

REQUEST

Please could you provide me with the following information:

- 1. Details of any digital pre-operative assessment systems currently in use within the organisation, including supplier name, contract start and end dates, and contract value.**

RESPONSE

The trust utilises functionality within its existing Careflow EPR system to capture and record pre-operative assessment data/information within the Southport and Ormskirk instance of Careflow.

Currently pre-operative assessment data is captured on paper forms at the St Helens and Knowsley site. There are plans to migrate these paper forms to the Narrative product within Careflow EPR.

It is not possible to split out a specific cost for this functionality.

The STHK Careflow contract ends on 31/03/27, with a 2 year option to extend. The full year costs for the STHK Careflow contract is £2.6M.

The S&O Careflow contract ends on 31/10/25 with a 3 year option to extend. The full year costs for the S&O Careflow contract is £1.25M.
