

Ref. No: 2186
Date: 24/11/25
Subject: Accountability

REQUEST

I am full aware that the consultation has ended but in this screenshot you inform us there is 5 options were the A&E could be located in in the hospital grounds so under the FOI act I ask which option you choose for the £61 refurbishment and could provide me with a copy of how you came to the £61 million on what option.

If you can't answer as you don't have a FOI team can you send it to the appropriate ICB FOI team.

RESPONSE

The image you have included in your email relates to Appendix 8 of the Shaping Care Together Pre-Consultation Business Case (PCBC), which provides an overview of the potential opportunities for co-locating A&E at Ormskirk Hospital. Page 39 of Appendix 8 provides the breakdown of the costs for refurbishment and new extensions.

Further details on the proposed option for co-location at Ormskirk Hospital can be found later in the document, starting on page 40 of Appendix 8. The full document with appendices, is publicly available here: [PCBC](#)
