

Ref. No: 2399
Date: 5th March
Subject: Menopause-After-Cancer Counselling Provision

REQUEST & RESPONSE

- 1. Please provide details of all menopause services currently available at your trust for patients experiencing treatment-induced or cancer-related menopause.**

We have dedicated menopause clinics running weekly

Please include service names, whether they are cancer-specific, and any referral pathways.

- 2. Please provide the number of patients referred to menopause services for cancer-related or treatment-induced menopause for the last five financial years (2021/22, 2022/23, 2023/24, 2024/25, 2025/26).**

We cannot get this information as we do not audit or manage patients who come to us via this route.

- 3. Please provide the number of patients who attended these services following referral, for the same years.**

If available, include first appointments, follow-ups.

We cannot get this information as we do not audit or manage patients who come to us via this route.

- 4. Please provide the average and longest waiting times for access to menopause services for oncology patients for each of the last five financial years.**

Unable to provide. No specific pathway for oncology patients. Upon discussion with CNS numbers re minimal and she would arrange FU in menopause for any patients requiring such.
