

Ref. No: 2578  
Date: 20/05/26  
Subject: Clinical homecare medicines services

**REQUEST and RESPONSE**

I am investigating clinical homecare medicines services across England. By “clinical homecare medicines services”, I mean services initiated or managed by the Trust which enable patients to receive ongoing medicines supply and, where relevant, associated care such as nursing support, patient training, medicine administration, monitoring or delivery at home or another non-hospital setting. This includes NHS-funded, manufacturer-funded and mixed-funded homecare medicines schemes, where this information is held by the Trust. Examples of clinical homecare providers include Healthnet, Sciensus, Lloyds Pharma Clinical Homecare, Alcura

1. Does your trust employ one or more homecare medicine services provider(s) to deliver and/or administer medicines to patients in their normal residence? If so, what is the name of the provider(s)?

Healthnet, Sciensus, Lloyds Pharma Clinical Homecare, Alcura, Polar Speed

2. Please provide a breakdown on spend by each clinical homecare provider for the following NHS financial years: FY24, FY25 and FY26

Provided total for all providers as a single number. We are unable to provide data for individual providers as it is commercially sensitive information. Section 43(2) applied.

| Sum of SumOfTotal_Net Column Labels |          |            |            |
|-------------------------------------|----------|------------|------------|
| Row Labels                          | 2023-24  | 2024-25    | 2025-26    |
| Mersey&W. Lancs                     | £919,548 | £1,809,928 | £1,595,550 |

**3. For each provider, how many active patients received your homecare medicines service as of 31 March 2024, 31 March 2025 and 31 March 2026?**

We are unable to obtain information for individual providers.

For all providers we have total 2934 active patients currently.

**4. For each provider, please provide a list of medications delivered and/or administered through this service as of 31 March 2024, 31 March 2025 and 31 March 2026?**

We only have this information as of 31 March 2026 and do not have information on individual providers.

**5. For each provider, as a proportion of all deliveries, what percentage of medicine and ancillaries deliveries were late in the most recent reporting period for which you have data, and in two comparable reporting periods (eg if giving data for March 2026, please also give figures for March 2025 and March 2024)? Please state what period the figures are for.**

Unable to answer as this information is not available.

**6. Please provide a breakdown of the expenditure (£m) on each of the top 10 clinical homecare products/drugs dispensed to clinical homecare service users in your Trust for the following NHS financial years: FY24, FY25 and FY26**

Unable to answer as it is commercially sensitive information. Section 43(2) applied.

### **Exemption Applied: Section 43(2) – Commercial Interests**

Mersey and West Lancashire Teaching Hospitals NHS Trust is applying Section 43(2) of the Freedom of Information Act 2000 (FOIA) to withhold the requested information.

Following careful consideration, the requested information is being withheld under Section 43(2) of the Freedom of Information Act 2000. This exemption applies where disclosure would, or would be likely to, prejudice the commercial interests of any person, including the public authority itself.

The information in question relates to commercially sensitive matters, pricing structures and supplier arrangements and, this has the potential to be used to work out the value of each product, which, if disclosed, could undermine the ability of the public authority to operate effectively in a competitive environment. It may also adversely affect the commercial interests of third parties with whom the authority has contractual or financial relationships.

In applying this exemption, the authority has considered the ICO's guidance on the prejudice test. It has concluded that there is a real and significant risk

that disclosure would prejudice commercial interests. This assessment is based on the nature of the information, the context in which it is held, and the competitive landscape in which the authority and its partners operate.

As Section 43 is a qualified exemption, the public interest test has also been applied. The authority recognises the public interest in transparency, accountability, and the scrutiny of public spending. However, in this instance, it is considered that the public interest in maintaining the exemption outweighs the public interest in disclosure. Releasing the information could distort market competition, damage relationships with suppliers, and reduce the authority's ability to secure value for money in future negotiations.
