

Ref. No: 2696
Date: 14/07/26
Subject: Reproductive Care

REQUEST

1. How long are patients having to wait to have an IUS contraceptive device fitted?
2. How long are patients having to wait to have an IUD contraceptive device fitted?
3. How long are patients having to wait to have a gynaecology appointment?

RESPONSE

1. How long are patients having to wait to have an IUS contraceptive device fitted?
2. How long are patients having to wait to have an IUD contraceptive device fitted?

Please note- the requested data cannot be broken down by specific device type because both procedures are recorded under the same procedure code.

The average wait to have a IUS/ IUD contraceptive device fitted or replaced as a primary procedure based on the last 3 months (May – July 2026) is 10.2 weeks.

3. How long are patients having to wait to have a gynaecology appointment?

The average wait for a first gynaecology appointment over the last 3 months (May – July 2026) is 10.5 weeks.
